Contact Tracing Playbook for Hotels

June 2020

Outline

Introduction to Contact Tracing

What Is Contact Tracing?

Contact tracing is a process that is used to identify, educate and monitor individuals who have had close contact with someone who is infected with a virus and can help the individuals understand their risk and limit further spread of the virus.

Outline

Introduction to Contact
Tracing

How Does It Work?

By deploying Symptom Pulse Checks to your guests post-arrival and post-departure, you can collect data you need to help prevent and stop the spread of the virus, allow you to keep your guests and employees safe and business running.

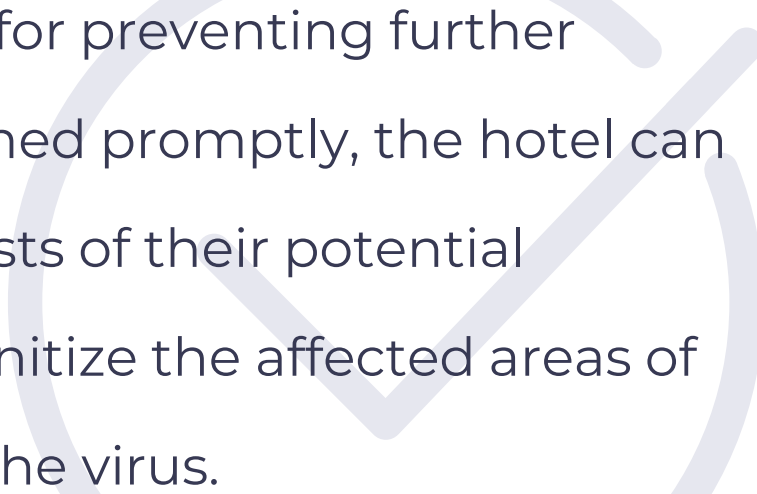

Outline

Introduction to Contact Tracing

Benefits Of Contact Tracing

Contact tracing is a key strategy for preventing further spread of COVID-19. When informed promptly, the hotel can immediately notify staff and guests of their potential exposure for self-isolation and sanitize the affected areas of the facility to stop the spread of the virus.

Challenges With Contact Tracing

Challenges With Contact Tracing

Contact tracing apps and wearables are:

- **Costly** to purchase or maintain
 - **Time-consuming** to implement
 - **Big change management** for staff and guests
 - You **can't enforce** guests to download and use the app
- 

How can hotels rapidly deploy a cost-effective solution that works and doesn't require a lot of change management on their guests?

2. Create Your Symptom Tracking Survey

The screenshot shows a survey interface for Maui Bliss Hotel Resort Spa. At the top, there is a logo with the text "GOOD VIBES" and "Maui Bliss HOTEL RESORT SPA". Below the logo is a legend: "1 ★ = Unwell to 5 ★★★★★ = Great". The main text of the survey reads: "To ensure the safety of our guests and employees and to help stop the spread of COVID-19, please take a quick minute to complete this self-assessment and tell us how you are feeling today." The question is "How are you feeling today?" followed by five star icons. Below the question, there is a list of symptoms: "Are you currently experiencing any of these symptoms: Cough or Shortness of Breath, Fever or Chills, Sore Throat or Difficulty Swallowing, Runny Nose or Congestion, Loss of Taste of Smell, Headache, Fatigue, Nausea, Vomiting, and/or Diarrhea". There are two radio button options: "Yes" and "No". At the bottom right, there is a blue "Submit" button with a checkmark icon.

Keep your survey short and concise!

Employees

What About Employees?

The process for employees is very similar. The only difference in the employee process is the scheduling of the symptom tracking pulse surveys. For employees, you would want to schedule pulse surveys regularly to ensure that staff members in the workplace are healthy and fit for work.
